PROJECT

- E Cart Website

PROFILE

I am an enthusiastic Artificial Intelligence student with a deep curiosity for solving real-world problems using advanced technologies. I enjoy working with programming languages like Python, JavaScript, and Java and exploring frameworks such as MERN and Spring to create innovative solutions.

WORK EXPERIENCE

2023 - PRESENT

College student

Machine Learning

- B.Sc in Computer Science with Artificial intelligence
- Studying foundational computer science concepts, data structures, and data science principles.
- Created a responsive website using HTML and advanced CSS, optimized for various screen sizes and devices. Focused on ensuring cross-browser compatibility and user-friendly design

ACTIVITIES

- Focused on self-care, self-growth, and continuous skill development
- Active football player and fitness enthusiast maintaining a healthy lifestyle.
- Engaged in various online coding challenges to strengthen JavaScript and problem-solving skills.

EDUCATION

B.Sc in Computer Science with Artificial intelligence

2023 - Current

GPA: 3.8 / 4.0

JMJ Matric Hr. Sec. School, Marakkanam

Percentage: 83 / 100%
